

KALEB ANTONIDES, MBA

Commercial Property Manager

BACKGROUND & EXPERIENCE

Kaleb joined NAI Wisinski of West Michigan in 2023 as a Commercial Property Manager. He has spent the last 5 years in residential property management where he managed the maintenance department and oversaw the financial planning and vendor relationships for 600+ multi-residential units across Southern Ontario. He also assisted in commercial appraisal inspections where he completed detailed reporting on the structural and overall condition of commercial properties for the purpose of refinancing and mortgage renewals.

Kaleb also brings with him extensive expertise in data analytics, including video analyst experience for the NHL and other professional hockey leagues. This work has translated well into property management for Kaleb through high attention to detail, quick critical thinking, and analyzing data and trends.

Kaleb takes pride in managing each of his properties and knows that each asset has its own unique needs. He enjoys building relationships with owners, tenants, and vendors and believes communication, accessibility, and organization are the keys to being a successful property manager.
